Cotton Letter.

Logan and Bryan Cotton Letter, New York—The cotton market this morning should have done better on a report issued by the consus department, as an addition to their report Saturday, which report showed 5,285,000 bules of cotton left at all the places in the United States. A careful analysis and an estimate of the world's reserves would indicate this to be bearish. In fact, since the figures were obtained about a million bales have already passed to the mills and presumably been spun into cloth. Miss Cille is also out today with an estimate of 2 per cent reduction in acreage compared with last year. Last year's yield, probably having been the largest on record, would indicate that an any reduced acreage smaller crop would follow, and with expanding trade conditions and the annual increase in spindles, the necessity for 14,000,000 bales of American grown becomes apparent. The bears employed every art to secure lower level of prices. They gunned for stop orders which they did not find and they argued without giving any well-founded reasons, and really they sold cotton which for months carried prices down but the next day's results are only a shade under those of Saturday, and there seemed to be fewer longs at the class of the market. 14972c, prime, 6962c; common to fair, 595c.

Fruncs show a steady tone, but no quotable change is reported in prices, which range from 34973c for new crop California fruit ranging up to 49-59s and frem 53c to 30 for Oragon 40-59s to 20-30s. Apricots are in a firm position statistically, with choice quoted at 94910c; extra choice, 102104; fancy, 113913c.

Advices from the coast tell of an advaning tendency in the market for peaches Locally there is a fair demand and prices are firm, with choice quoted at 32906c; extra choice, 64503c; fancy, 7985c.

Raisins are unchanged, with loose Muscotel quoted at 495c; choice to fancy seeded, 44964c; seedless, 3495c; London layers, \$1.2041.30.

Visible Grain Sumby

Visible Grain Supply.

NEW YORK, March 22.—The visible supply of grain in the United States Saturday, March 20, as compiled by the New York produce exchange, was as fel-Wheat, 37,076,000 bushels; increase, 80,-000 bushels. Dull, Sees a Brisk Demand.

CHICAGO. March 22.—Reported ex-Considering that it was the first day of austion of Australia's exportable sur- the week, business was moderately active haustion of Australia's exportable surplus of wheat transformed the wheat market today from a decidedly weak affair into one of considerable strength. At the close, however, prices were still a shade to iffic below Saturday's close. The change in sentiment in the wheat pit occurred during the final hour and resulted in considerable activity and strength, following a period of decided heaviness during which time offerings found comparatively few buyers.

The reason for the late firmness was a cablegram from a well-known English crop statistician, in which it was stated that only 4,000,000 bushels of wheat available for export from Australia from the season's crop remained to be shipped, thus indicating a much less amount than previously estimated. Several leading bulls gave the market good support, and shorts also covered freely. The result was a quick advance of ic from the low point of the day. During the day May ranged between \$1.014 and \$1.154, while July sold between \$1.014 and \$1.024. The market closed at almost the top, with May at \$1.154 and July at \$1.022\$1.024.

The slump in wheat and the easy tone of cables had a depressing effect on cora during the early part of the day. Later, however, the market railied on talk of some export business having been "worked" at New York.

The raily in wheat laso inspired buying in the final hour. The close was firm, with prices &e lower to 8c higher, May being at 664,665 and July at 654c.

Oats were weak the greater part of the day. At the close verses were \$2 to \$160 to 100,0125 to 10 plus of wheat transformed the wheat on the produce market Monday. The dealers displayed a good variety of early spring entables, including lettuce, green

spring entables, including lettuce, green onlons, radishes, cabbage, rhubarb and strawberries. A consignment of strawberries was received from California Monday morning and the dealers offered the delicacy at 20c a box.

Today the dealers are expecting a shipment of apples from Idaho, in addition to a supply of potatoes from Davis county, Utah. Potatoes are not so scarce as they were, and will continue to become more plentiful as the mud dries up and the roads become hard again. There has been no reduction in the price.

The housewife saw no fall in the price of butter Monday, the product continuing at 34c a pound wholesale and 46c a pound retail. These were the quotations on the best creamery butter. Lower grades could be obtained at lower prices.

U. S. DEPARTMENT OF AGRICULT.

could be obtained at lower prices.

U. S. DEPARTMENT OF AGRICULTURE. OFFICE OF THE SECRETARY.
Washington. D. C., March 12, 1909.
Notice No. 32.—Notice is hereby given that the Secretary of Agriculture has under authority conferred by law, issued an amendment described as Amendment 3 to B. A. I. Order 146), to prevent the spread of scables in sheep. This amendment, which becomes effective April 1, 1909, releases from quarantine for sheep scables the state of Montana, that part of North Dakota lying south and west of the Missouri river, and that part of South Dakota lying west of the Missouri river. Copies of Amendment 2 to Rule 3, Revision 1, may be obtained from the Chief of the Burcau of Animal Industry, whose address is Washington, D. C.

JAMES WILSON,
Secretary of Agriculture.
